

Technical Data Sheet

Frend Hand Sanitiser Gel

GENERAL DESCRIPTION:

FREND HAND SANITISER GEL contains a total of 70% alcohol and kills up to 99.99% of bacteria and helps prevent its spread. It is also effective against enveloped viruses, such as coronavirus. The gentle formula is specially designed to prevent dryness that can be caused by frequent use.

DIRECTIONS FOR USE:

Soiled hands must be washed before **FREND HAND SANITISER GEL** is applied. Dispense through suitable equipment such as a dispenser, pump pack or hand dip tank to apply sufficient product to ensure total coverage of hands. Rub hands together lightly for at least 30 seconds so that the product dries on all surfaces of both hands. No towelling or other cloth should be used to dry hands.

Laboratory tested

Bactericidal according to EN1500 (Hand Sanitisers)

Bactericidal according to EN 1276 &

Virucidal according to EN 14476
